

JPanel

main.java.Tile

main.java.Titles

```
graph BT; Titles[main.java.Titles] --> JPanel[JPanel]; Titles --> Tile[main.java.Tile];
```

The diagram illustrates a class hierarchy where the class `main.java.Titles` is the superclass, and `JPanel` and `main.java.Tile` are its subclasses. This is represented by a central box at the bottom labeled `main.java.Titles`, with two arrows pointing upwards from it to the boxes labeled `JPanel` and `main.java.Tile` at the top.
